

# GMAT

**Have you wondered how you might go about introducing electronic technology into the teaching of Year 11 and 12 General Mathematics?**

**Have you wondered how you might get started using Graphics Calculator technology in your teaching?**

If your answers to the above questions are yes, then the GMAT program aims to support you in beginning this journey.

A variety of high quality lesson ideas will be on offer, with Classroom ready Materials to take away with you and use the next day should you wish.

**No previous knowledge will be assumed. This course aims to cater for those who are just starting out.**

Participants will meet at convenient locations, in schools near you, in Sydney Metro locations.

Regular sessions of 2 hours duration will be offered (up to 2 times a term.) and held on an ongoing basis – no charge to attend.

To express your interest in the above program - Please return this page by  
**fax to (02) 9415 5057 ASAP.**

Your name/s: \_\_\_\_\_
